

# WHITE WASHED TOMBS

## DISCUSSION QUESTIONS

1. What do you believe God was teaching you from the message tonight?
2. Over the course of this series, we've talked about how authentic worship is done with a **heart to glorify God**, **humility** and a **right understanding of truth**. Which of these concepts is hardest for you in your personal worship? Why?
3. In what areas of your life are you tempted to let your emotions determine what you believe to be true? How could this be dangerous to your faith?
4. In John 4:23 Jesus says true worshipers worship in "spirit AND truth" (aka your heart and your head) but this can be a hard balance. Is your default to worship more emotionally or more logically? What is the downside to only worshiping with one or the other?

## ACCOUNTABILITY

A large part of worshiping authentically means knowing Gods word deeply...

- What practices do you have in your life to deepen your understanding of the Bible?
- What steps can you take as a small group to hold one another accountable to deeper growth and understanding of Gods truth?

## PRAYER

- Pray that God would continue to give you a desire to understand His Word and give you a heart to worship Him properly in every aspect of your life!
